About the Role

IntelliSource Technologies Pvt. Ltd. is looking for a motivated, detail-oriented, and analytical **Quality Assurance Analyst – Trainee** to join our software development team.

This is an excellent opportunity for fresh graduates who want to build a career in software quality assurance and testing. The selected candidate will receive practical exposure to real-world software applications and will work closely with developers, business analysts, product owners, and other team members to ensure the delivery of high-quality software.

Key Responsibilities

- Understand business requirements, functional requirements, and application workflows.
- Review user stories and acceptance criteria to identify test scenarios.
- Prepare and execute manual test cases and test scenarios.
- Perform functional, regression, integration, UI, and exploratory testing.
- Identify software defects and document them with clear descriptions, reproduction steps, screenshots, and supporting evidence.
- Report and track defects using defect-management tools.
- Collaborate with developers and business analysts to clarify requirements and resolve issues.
- Participate in requirement discussions, sprint meetings, and other Agile ceremonies.
- Support User Acceptance Testing (UAT) activities when required.
- Follow established QA processes, standards, and documentation practices.
- Continuously improve knowledge of software testing methodologies, tools, and best practices.

Required Skills

- Basic understanding of the Software Testing Life Cycle (STLC).
- Knowledge of software testing concepts and methodologies.
- Understanding of test cases, test scenarios, test data, and defect life cycle.

- Basic knowledge of functional, regression, integration, UI, and exploratory testing.
- Good analytical and logical thinking abilities.
- Strong attention to detail and ability to identify different application scenarios.

Educational Qualification

- B.E. / B.Tech in Computer Science, Information Technology, or a related field.

Candidate Profile

We are looking for candidates who:

- Have a genuine interest in software testing and quality assurance.
- Are curious and naturally think about different scenarios and possibilities.
- Have strong observation skills and attention to detail.
- Can understand application workflows from an end-user perspective.
- Are comfortable asking questions when requirements are unclear.
- Follow a disciplined approach to documentation and process compliance.
- Have a proactive attitude toward learning and continuous improvement.
- Can take ownership of assigned tasks and complete them within agreed timelines.

Training and Career Growth

The selected candidate will receive practical exposure to:

- Manual software testing
- Test case design and execution
- SQL and database validation
- API testing
- Performance testing
- Agile and Scrum processes
- User Acceptance Testing (UAT)

Why Join IntelliSource Technologies?

- Opportunity to work on real-world software applications.
- Practical learning and mentorship from experienced professionals.
- Exposure to complete software development and testing processes.
- Opportunity to work closely with technical and business teams.
- Structured career growth based on performance and skill development.
- Collaborative and professional work environment.
